

**HANDBOOK FOR INVESTIGATION AND
CORRECTIVE ACTION REQUIREMENTS
FOR DISCHARGES FROM STORAGE
TANKS, PIPING SYSTEMS
AND OTHER RELEASES**

**The South Dakota Department of Environment
and Natural Resources
Ground-Water Quality Program**

"Protecting South Dakota's Tomorrow ... Today"

VERSION 2.0 – MARCH 2003

**HANDBOOK FOR REPORTING, INVESTIGATING, AND REMEDIATING
PETROLEUM RELEASES IN SOUTH DAKOTA**

TABLE OF CONTENTS

1.0 INTRODUCTION	6
1.1 Handbook Chapter Summary	6
1.2 Financial Assistance for Petroleum Releases	7
1.3 Certification Requirements for Petroleum Releases	7
2.0 REPORTING REQUIREMENTS FOR PETROLEUM RELEASES	8
2.1 Reporting Known Releases	8
2.2 Reporting Suspected Releases	9
2.2.1 Suspected Releases from Underground Storage Tanks.....	9
2.2.2 Suspected Releases from All Other Sources.....	10
3.0 STEPS TAKEN AFTER A PETROLEUM RELEASE IS REPORTED	11
3.1 Situations where Immediate Action is Required	11
3.1.1 Vapors in buildings	11
3.1.2 Vapors or free product in utilities	11
3.1.3 Contaminated drinking water wells or water lines.....	12
3.1.4 Sudden/Catastrophic release onto the ground surface.....	12
3.1.5 Release onto pavement or other hard surfaces.....	13
3.1.6 Release to air	13
3.1.8 Threats to Surface Water and Wetlands	14
3.1.9 Impacts to Ground Water and Soils	14
4.0 TIER ASSESSMENTS	15
4.1 Tier 1 Assessment	15
4.1.2 Tier 1 Action Levels for Petroleum Contaminated Soils	15
4.1.3 Total Petroleum Hydrocarbon Trigger Level.....	16
4.1.4 Sampling and Data Collection.....	16
4.1.5 Tier 1 Additional Information ¹	19
4.1.6 Source removal.....	20
4.1.7 Decision process.....	20
4.2 Tier 2 Assessment	21
4.2.1 Tier 2 Look-up tables	22
4.2.2 Sampling and data collection	36
4.2.3 Developing site specific target levels	37
4.2.4 Decision process.....	38
4.2.5 Decision process to move to Tier 3.....	38
4.3 Tier 3 Assessment	39
4.3.1 Department Approval Prior to Tier 3 Assessment	39
4.3.2 Sampling plan.....	39
4.3.3 Contractor review	39
4.3.4 Decision process.....	40
5.0 CORRECTIVE ACTION REQUIREMENTS	45
5.1 Source Removal	45
5.1.1 Free product removal	45
5.1.2 Tank system removal	48
5.2 Active Remediation: Ex-situ Methods	48
5.2.1 Excavation of contaminated soil	49
5.2.2 Aboveground treatment of excavated soil.....	49

5.2.3	Ground water pump and treat	51
5.2.4	Other technologies.....	52
5.3	Active Remediation: In-situ Methods	52
5.3.1	Soil vapor extraction.....	53
5.3.2	Bioventing.....	59
5.3.3	Air sparging.....	64
5.3.4	Air Quality Permits	68
5.4	Monitored Natural Attenuation at Petroleum Release Sites.....	69
5.4.1	Natural attenuation mechanism.....	70
5.4.2	Initial screening.....	70
5.4.3	Site characterization.....	71
5.4.4	Validation monitoring.....	72
5.4.5	Long-term monitoring.....	73
5.4.6	MNA confirmation soil samples	74
5.5	Oxygen Release Compounds	74
5.5.1	Initial Site Screening.....	74
5.5.2	Evaluation of Site Parameters.....	75
5.5.3	Application Methods and Monitoring Requirements.....	76
5.6	Other Technologies	77
5.7	Engineering Controls	77
5.7.1	Engineering controls to eliminate exposure routes	77
5.7.2	Engineering controls for vapors	77
5.7.3	Engineering controls to treat or protect drinking water supplies	78
6.0	GUIDANCE FOR MONITORING WELL INSTALLATION & MONITORING ...	79
6.1	Guidance for Monitoring Well Installation.....	79
6.1.1	Site is in a Formation That is <u>Not</u> an Aquifer and is <u>Not</u> Likely to be Hydrologically Connected to an Aquifer	79
6.1.2	Site is in a Formation That <u>is</u> an Aquifer or <u>is</u> Likely to be Hydrologically Connected to an Aquifer.....	83
6.2	General Monitoring Well Requirements	86
6.3	Multiple Sources of Contamination	88
6.4	Periodic Ground Water Monitoring	88
6.4.1	Monitoring Upgradient and Side-Gradient Wells.....	89
6.4.2	Downgradient Wells and Wells in the Contaminant Plume	90
6.4.3	Unnecessary Constituents	91
6.4.4	Ground Water Sampling During Operation of In-Situ Treatment Systems.....	92
6.5	Flooded Screens	92
6.6	Direct-Push Wells	92
6.7	Quality Assurance/Quality Control Samples	93
6.8	Damaged Wells	93
7.0	AIR AND VAPOR MONITORING REQUIREMENTS	101
7.1	Introduction	101
7.2	General Air Monitoring Requirements	101
7.2.1	Vapor Concerns Requiring Immediate Actions	101
7.2.2	Tier 1 Assessment	101
7.2.3	Tier 2 Assessment	101
7.3	General Guidelines for an Air Monitoring Program	103
7.4	Specific Sampling Strategies	103
7.4.1	Vapors in utilities	103
7.4.2	Vapors in buildings	104

7.5 Releases to Ambient Air	105
7.6 Soil Gas or Soil Vapor Sampling	105
7.7 Risk Based Corrective Action Modeling	105
8.0 REPORT REQUIREMENTS	106
8.1 Assessment Reports	106
8.1.1 Tier 1 Assessment Report	106
8.1.2 Tier 2 Assessment Report	107
8.1.3 Tier 3 Assessment Report	107
8.2 Corrective Action Plans and Corrective Action Reports	108
8.2.1 Corrective Action Plans	108
8.2.2 Corrective Action Reports.....	108
8.3 Monitoring Reports	108
8.3.1 Basic site information.....	108
8.3.2 Water level measurements	109
8.3.3 Analytical results	109
8.3.4 Site map.....	109
8.4 Site Summary Sheet	109
9.0 DISPOSAL OF PETROLEUM CONTAMINATED MATERIALS	112
AND TANK CONTENTS	112
9.1 Introduction	112
9.2 Disposal of soil cuttings	112
9.3 Disposal of contaminated soil	112
9.4 Disposal of contaminated water from storage tanks, de-contamination activities and de-watering activities	113
9.5 Disposal of product from storage tanks	113
9.6 Tank Contents	113
9.7 Disposal of contaminated water from wells	114
10.0 SITE CLOSURE REQUIREMENTS	115
10.1 Clean Closure Requirements	115
10.2 Standard Closure Requirements	115
10.3 No Further Action Requirements	115
10.3.1 Aquifer Sites.....	115
10.3.2 Non-Aquifer Sites.....	116

LIST OF TABLES

Table 4.1 Tier 1 Action Levels for Soils	16
Table 4.2 Summary of Excavation Soil Sampling Requirements	17
Table 4.3 Summary of Soil Boring Requirements	18
Table 4.4 Lookup Table for Surface Soils (0-3.2 feet)	24
Table 4.5 Ground Water Volatilizing to Indoor Air (6 in. to less than 5 ft. deep)	26
Table 4.6 Ground Water Volatilizing to Indoor Air (5 ft. to less than 10 ft. deep)	27
Table 4.7 Ground Water Volatilizing to Indoor Air (10 ft. to less than 15 ft. deep)	28
Table 4.8 Ground Water Volatilizing to Indoor Air (15 ft. to less 20 ft. deep)	29
Table 4.9 Ground Water Volatilizing to Indoor Air (20 ft. and deeper)	30
Table 4.10 Soil Volatilizing to Indoor Air (Less than 5 ft. deep)	31
Table 4.11 Soil Volatilizing to Indoor Air (5 ft. to less than 10 ft. deep)	32
Table 4.12 Soil Volatilizing to Indoor Air (10 ft. to less than 15 ft. deep)	33
Table 4.13 Soil Volatilizing to Indoor Air (15 ft. and Deeper)	34

Table 4.14 Look-Up for Gasoline Contaminated Ground Water in Contact with PVC Waterline	35
TABLE 5.1 Example for Correction of Ground Water Elevations for Free-Product (Gasoline)	47
Table 5.2 Specific Gravity of Selected Fuels	47
TABLE 5.3 Soil Sampling Requirements for Aboveground Treatment Systems	51
Table 5.4 Validation Monitoring Requirements	73
Table 5.5 Long-term Monitoring Requirements	73
Table 6.1 Monitoring Well Installation.....	94
Table 6.2 Monitoring Well Installation.....	95
Table 6.3 Monitoring Well Installation.....	97
